Bangalore, India | Open to relocation: UK, EU, or Dubai

SUMMARY

Product marketer with 6+ years across consumer fintech, crypto, web3, and B2B technology. Led GTM, positioning, audience strategy, launch messaging, and lifecycle programs for card, cash, and crypto products. Strongest at turning complex products into clear, trusted stories and measurable adoption, retention, revenue, and AUM growth.

SELECTED IMPACT

- Launched a new interest structure at Juno, increasing cash AUM by \$30M in 3 months, a 100% increase.
- Generated \$2M in revenue through lifecycle programs across email, push, in-app, and automated campaigns.
- Increased weekly referrals by 145% and crypto wallet activations by 3x; activation campaigns drove \$2M+ in trading volume.

EXPERIENCE

Planned Career Break | APR 2026 - PRESENT

Taking a deliberate reset after six years of operating roles: returning to music, sharpening product marketing judgment, and building selective AI-enabled systems, including Studying the Masters, a personal editorial product used daily.

Growgami | Growth & GTM | MAR 2025 - APR 2026

- Owned positioning, channel strategy, brand voice, and launch execution for a key Layer 1 client, translating a complex crypto product into clearer market narratives and coordinated campaigns.
- Led cross-functional launch operations across client stakeholders, PR/comms, engineering, design, data, content, community, and creators.
- Grew X from 98K to 300K followers with 7% engagement and Discord from 0 to 300K members with 6.5% engagement; drove 150K+ verified testnet users.
- Ran creator campaigns end to end, from sourcing and briefs through creative direction, launch coordination, and reporting, across 100+ campaigns, 1,000+ creators, and 50M+ views.
- Improved the agency's website positioning and conversion paths; shipped creator playbooks, diagnostic tools, landing pages, and product experiments that created qualified lead conversations.
- Built self-improving content calendars using audience archetypes, Codex, and Slack integrations.

Juno | Growth Manager | DEC 2021 - DEC 2024

- Led product marketing for card, cash, and crypto products across GTM, positioning, segmentation, launch messaging, adoption, retention, and monetization.
- Owned lifecycle marketing for nearly three years across email, push, in-app, and automated campaigns, generating \$2M in revenue.
- Used lifecycle programs as fast feedback loops to test value propositions, understand user behavior, and inform product and campaign strategy.
- Launched a new interest structure, increasing cash AUM by \$30M in 3 months, a 100% increase.
- Increased weekly referrals by 145% through Juno's highest-performing referral campaign, using a tiered reward structure and NFT NYC tickets.
- Increased crypto wallet activations by 3x versus control cohorts and drove \$2M+ in trading volume.
- Served on the emergency response team during crises, translating fast-moving product and business decisions into accurate, urgent customer communications.
- Partnered with founders, product, data, customer support, and engineering to analyze behavior, define audiences, launch campaigns, and improve engagement, retention, and revenue.

Skylark Drones | Business Analyst | APR 2019 - APR 2021

- Worked on major Indian drone contracts and international partnerships with the Head of Business Development.
- Led sales and marketing for DronePass, making it India's top NPNT compliance solution.

- Translated a technical compliance product into market-facing messaging for enterprise, government, and aviation stakeholders.

SELECTED WORK

Studying the Masters | Personal AI editorial system used daily

Built an operating morning editorial product that selects and synthesizes enduring ideas, current signals, and prompts tied to live work. Combined AI judgment with deterministic checks for freshness, validation, publishing state, delivery, and duplicate-send protection.

sushilathreya.com/studying-the-masters-project.html | github.com/sushilathreya/daily-input-stack

Email Quality Checklist at Juno | Published by Reforge

Built a practical quality standard for lifecycle email, grounded in cross-functional work across product, compliance, banking, and growth.

reforge.com/artifacts/email-quality-checklist-at-juno

Flo Growth Strategy | GrowthX

Led a team strategy for acquiring 100K paying customers in India, grounded in 50+ user interviews completed in one week.
